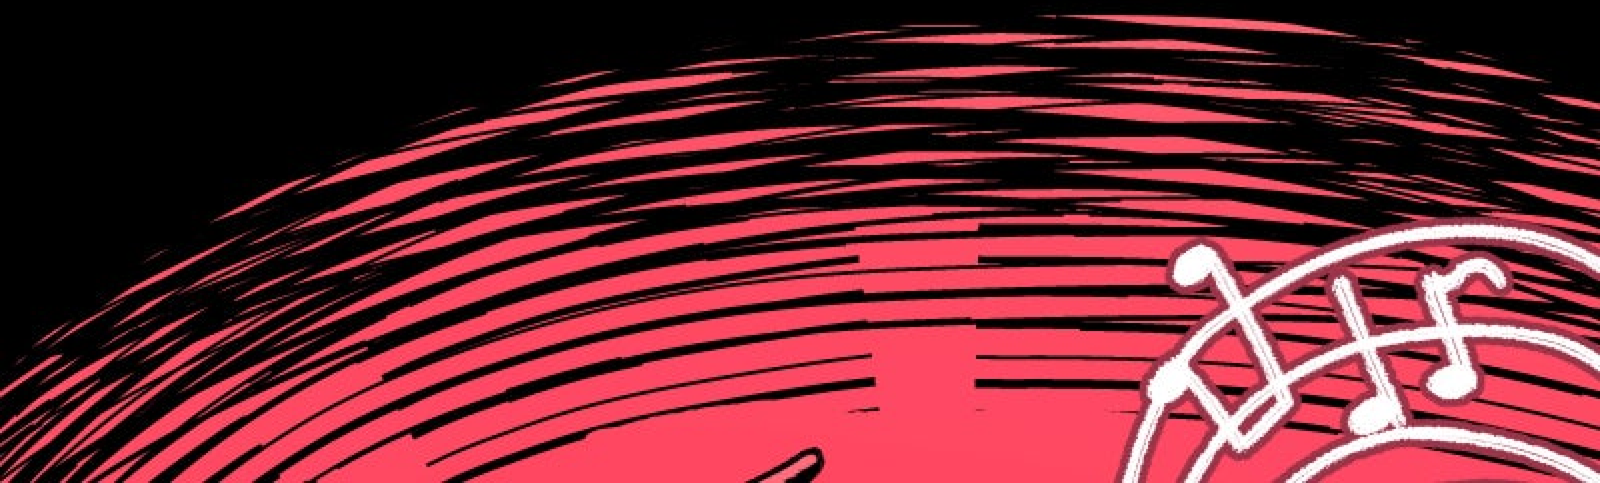
These are **paraulatas**, they mimic the cries of other birds.
If we pay close attention to their tunes, they might lead us to El **Silbón**.
LORE OF LEYENDA



El silbón or *the Whistler* is a tale of legend who roams the lone night with a bag of bones on his back, whistling a natural scale as he preys on his victims.

LORE OF LEYENDA

If you hear him next to you, you are safe. If you hear him in the distance, you are done.
